

Fact Sheet

Ellington Acres Rates

Pay your bill online by check or credit card at www.ctwater.com

Rates and any applicable surcharges for water service for Connecticut Water are approved by the Public Utilities Regulatory Authority (PURA). Approved rates for all of the Connecticut Water systems are available on our Web site www.ctwater.com.

The charges for all customers include a **Basic Service Charge** and a **Commodity Charge** and any **Applicable Charges or Credits**.

- **Basic Service Charge** is applied each billing period to help cover certain fixed costs such as meter reading, testing and replacement, bill preparation and processing, etc. The basic service charge is based on the meter size at your account. *These Basic Service Charges are applied even if there is no consumption at a premise during a particular billing period.*
- **Commodity Charge** is based on the amount of water used during the billing period times the applicable charge for your customer class (residential, commercial, industrial, public authority and seasonal). The commodity charge shows on the bill in units of gallons or cubic feet depending on how the meter installed at your premises records the usage.
- **Applicable Charges or Credits** are those PURA approved charges applied on a percentage basis to the total of the Basic Service Charge, Commodity Charge and miscellaneous service charges as noted below. These may include the Water Infrastructure and Conservation Adjustment (WICA) and the Water Revenue Adjustment (WRA). The WICA recovers the costs for eligible infrastructure projects and the WRA ensures that water utilities do not over-collect or under-collect the revenues that were approved in rates by PURA. The WICA may be adjusted every 6 months. The WRA is reviewed annually and may be a charge or credit on customers' bills based on actual revenues collected in the prior year. WRA is applied to miscellaneous service charges and service fees.

Most customer bills are issued once per quarter, though larger volume users including commercial and industrial customers may be billed once per month. The number of days in a billing cycle may vary slightly, but your service charge and consumption reflect the actual usage and days in the billing period for your account.

BASIC SERVICE CHARGES

Meter Size	Quarterly	Daily Rate
5/8"	\$ 25.95	\$0.284
1"	\$ 64.87	\$0.711
