

Corporate Sustainability

AT A GLANCE 2016

ENVIRONMENTAL STEWARDSHIP

We strive to be good stewards of the environment and to manage the resources in a manner that promotes water and energy conservation, source protection, and preservation of open space.

- Environmental Policy
- Source Water Protection
- Recreation & Open Space
- Forest Management
- Water Conservation

SUSTAINABLE INFRASTRUCTURE

Our investment in infrastructure ensures customer health and safety; is a growth driver for the Company; and benefits customers, communities and the environment.

- Water Infrastructure Investment
- Investing in Infrastructure
- Leveraging Technology

REDUCING OUR ENERGY FOOTPRINT

Energy management is integrated into all areas of the organization and obtain input, ideas, and resources from all departments. Through this effort, we have successfully established a comprehensive energy management program geared toward continuous energy efficiency improvement.

- Energy Management
- Transportation Management

SOCIAL AWARENESS

We are dedicated to being an integral part of and improving the communities we serve. We look for opportunities to partner with community leaders and local organizations on projects to improve water quality, preserve the environment, promote education, and benefit the community as a whole.

- Charitable Giving & Community Involvement
- Partnering for Sustainability
- Awards
