### **Connecticut Water Company Proudly Supports Deep River Housing Authority Energy Conservation Project at Kirtland Commons**

Deep River, Conn. — Jan. 31, 2018 — Connecticut Water Company is proud to announce that it has been able to help fund an energy-conservation and elevator upgrade project at the Deep River Housing Authority’s Kirtland Commons residential community through the Connecticut Neighborhood Assistance Act Tax Credit program. The company’s donation will go toward the modernization of an existing elevator in the building that serves residents of the facility.

Joann Hourigan, the executive director of the Deep River Housing Authority shared, “We are fortunate to have such support for our projects from the community through the Neighborhood Assistance Act program. The donation from Connecticut Water Company, combined with other companies, makes it possible for us to upgrade a 1990’s era elevator to make it more energy efficient, reliable and provide a smooth ‘ride’ for our residents.”

David Radka, chair of Connecticut Water’s Corporate Responsibility Committee noted, “Connecticut Water and its employees appreciate the opportunity to assist the Deep River Housing Authority upgrade and enhance the energy efficiency of its older equipment. We are pleased to be able to support their efforts to use energy more efficiently to the benefit of patrons and the environment, and to provide a safe residential community for low income elderly residents who have contributed to the community over the years”.

#### **About the Deep River Housing Authority:**

Deep River Housing Authority provides housing to elderly and disabled individuals, rent is income based with a minimum rental of \$944.

#### **About Connecticut Water Company:**

Connecticut Water is a public water utility regulated by the Connecticut Public Utilities Regulatory Authority and it has more than 93,000 customers across the state. The company and its employees care deeply about the communities we are privileged to serve and are dedicated to being an integral part of those communities. We look for opportunities to partner with local organizations, such as the Deep River Housing Authority, on energy efficiency projects that benefit the environment and the community as a whole.
