

Connecticut Water Recognizes Spring Cleaning in the Community with Rain Barrel Raffle

Customers Invited to Join Connecticut Water Employees in Cleaning Up Communities to Enter

CLINTON, Conn. — April 5, 2021— Connecticut Water is rewarding customers who make the effort to clean-up their communities with a chance to win a custom rain barrel. The price of entry is for the customer to submit a photo of themselves picking up litter in their community to the company's social media pages.

Three winners will be chosen at random from the entries submitted for a custom rain barrel made from used food grade plastic barrel. The barrels had been used for shipping pickles and are being repurposed into rain barrels by a Connecticut Water employee who volunteered as a way to promote water conservation.

"At Connecticut Water, we are passionate about the environment while delivering life sustaining, high quality water service to families and communities," said Connecticut Water president Maureen Westbrook. "Although COVID-19 continues to prevent us from getting together for the in-person events like watershed and roadside cleanups that we typically conduct over the course of the year, we still want to celebrate the collective impact that we all can make together by being good stewards of the environment."

Three customers will be chosen at random from those who submit photos to win. The deadline to submit photos is May 8th, which is end of Drinking Water Week 2021. The rain barrels will be delivered to the winning customers' homes.

For more information on the contest, visit www.facebook.com/CTWtr

Instructions on how to make rain barrels are also posted to www.ctwater.com/conservation
