

# Guilford Drinking Water Infrastructure Projects 2021 Updates

Connecticut Water is proud to deliver quality water and service to 105,000 customers, or about 350,000 people in 60 Connecticut towns.

Safe, reliable water provides for public health, public safety and economic development for customers and the communities we serve.

## Guilford Drinking Water Infrastructure Projects

Since 2019, Connecticut Water has been working on \$6 million in investments to address aging infrastructure in Guilford. The majority of the funds have been invested to replace water mains, some of which are more than 100 years old. From the start of the project to its completion this year, over 11,000 feet of water main will be replaced.

**Phases 2B, 3 and 4 will be completed this year.**

Work hours are expected to be Monday through Friday between the hours of 7:00 am and 4:30 pm, with an approximate 2 week period of night work (8:00 pm—5:00 am) expected to begin in mid-May, but are subject to contractor scheduling and approval by the Connecticut DOT.

Any planned necessary service interruptions and other updates related to the night work will be communicated directly to impacted customers at least 48 hours prior to the interruption. To make sure we have the contact info on file that's best for you, call us at 1-800-286-5700 or visit [www.ctwater.com/customers/notifications](http://www.ctwater.com/customers/notifications).
