

Setting up your iPhone's Hotspot is a quick and easy process. Follow the steps below to set it up.

Open the **Settings** app

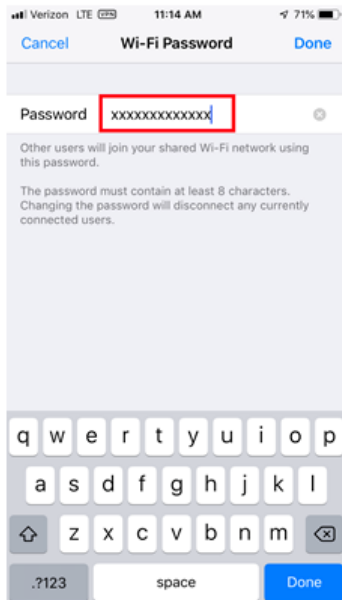

Select "**Personal Hotspot**"

Find the **Wi-Fi Password** box and confirm that a password is shown in the box.

If no password is in the box, you must create a password now and then tap **Done**.

Tap the toggle switch to turn on the Hotspot. It will turn **green** to indicate that it is enabled.
