Dear Valued Customer:

The Connecticut Water Company continues to invest in drinking water infrastructure to better serve the customers and communities that we are privileged to serve. We have a project planned in your neighborhood that will begin in the summer of 2022.

The project involves replacing our aging “Anvil” tank on Anvil Drive. The current tank is 54 years old with a capacity of 1,350,000 gallons. This tank will be removed once a new tank of similar construction and capacity has been erected. A new booster station and additional water mains in the area will be constructed to improve water pressure and enhance water quality.

We are contacting you because you live in the area near the construction site and will benefit directly from its completion. Connecticut Water is inviting you to a virtual public outreach meeting that will provide an overview of the project, including timing and a discussion of the benefit to customers. The meeting will be held **Tuesday, December 7, 2021, at 6:00 p.m.**

You are welcome to attend the meeting by using the following information:

*Join from Zoom*  
Meeting ID: 790 942 7403  
Password: 112234

*Join from our website:*
