

Connecticut Water Supports Energy Efficient Lighting Project for Thomaston WPCA *Donating \$2,500 for LED lighting upgrade through Neighborhood Assistance Act*

Thomaston, Conn. — February 25, 2022 — The Town of Thomaston’s Water Pollution Control Authority is the recipient of a \$2,500 grant from Connecticut Water Company’s Charitable Giving Committee. The grant was made through Connecticut’s Neighborhood Assistance Act (NAA) and will be used to replace older, inefficient lighting with energy efficient LED lights at the WPCA’s treatment facility.

“I want to thank the Connecticut Water for its donation and support of the environment by contributing to energy efficiency projects, said Thomaston First Selectman, Edmond V. Mone. “Connecticut Water is a reliable partner to the town and its residents, and the LED lighting project will reduce energy costs that are paid for by taxpayers.”

Craig J. Patla, vice president of service delivery at Connecticut Water, noted, “Connecticut Water and its employees are pleased to support the town of Thomaston in this project that will not only lower energy costs for the town, but also decrease the impact that higher energy usage has on our environment. Environmental stewardship is something Connecticut Water takes very seriously, and we’re proud to supports projects that benefit the environment.”

Awards made by Connecticut Water through the Neighborhood Assistance Act are funded by the company and not recovered in rates charged to customers.
